

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Mark Malin
DOCKET NO.: 03-24651.001-R-1
PARCEL NO.: 14-19-226-009-0000

The parties of record before the Property Tax Appeal Board are Mark Malin, the appellant, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property consists of a 87-year old, three-story masonry multi-family dwelling containing 3,282 square feet of living area with a full, unfinished basement.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing four suggested comparable properties. On the appellant's map, one of the the comparables is located five blocks from the subject, and three are located approximately one-half to one mile from the subject. According to the appellant's grid analysis, the comparables are two-story or three-story masonry dwellings that are 87 to 107 years old. Photographs supplied by the appellant indicate that the comparables are mixed-use properties with business entities on the first floor. Each of the comparables has a partial basement. One comparable has central air conditioning, but information on garages was not disclosed. The comparables contain 2,946 to 3,343 square feet of living area and have improvement assessments of \$8.84 to \$9.22 per square foot. The subject property has an improvement assessment of \$15.32 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment was disclosed. In support of the subject's assessment, the board of review offered

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	4,800
IMPR.:	\$	50,289
TOTAL:	\$	55,089

Subject only to the State multiplier as applicable.

property characteristic sheets and a spreadsheet detailing four suggested comparable properties that are located in the same general area as the subject. The comparable properties consist of three-story masonry or frame and masonry multi-family dwellings that are 78 to 95 years old. Each of the comparables has a full, unfinished basement. The dwellings contain 2,542 to 3,288 square feet of living area and have improvement assessments of \$15.23 to \$17.31 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

Both parties presented assessment data on a total of eight equity comparables. The appellant's comparables differed significantly in building use from the subject, and comparables one, two, and four also differed substantially in design from the subject. As a result, the appellant's comparables received reduced weight in the Board's analysis. The board of review's comparables one, two, and four differed substantially in size from the subject and also received reduced weight in Board's analysis. The board of review's comparable three was the most similar to the subject in location, age, and physical characteristics. This comparable had an improvement assessment of \$15.23 per square foot and supports the subject's improvement assessment of \$15.32 per square foot. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is supported by the most comparable property contained in the record and a reduction in the subject's assessment is not warranted.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
